CUSTOM SINKS

Sinks that make sense® | USA | 1999

Harmony
BY RACHIELE®
PARAGON™

Hand Burnished
14 Gauge Bronze
Micro-Welded Corners

Logo is embossed
on drain side of sinks
and on all cutting boards

Flanges: 3/4" front and rear, 1" left and right.

Installation: Countertop must be cut flush with the interior of the bowl—no overhang or reveal.

Support: Sink must rest on flanges only. Bowl is slightly deeper at the drain.

For wide sinks against a wall, ensure the back splash thickness does not exceed 3/4" to allow room for faucet installation.
